EDUCATION

University of Wisconsin - Madison

Bachelor of Science — Computer Science

Madison, WI

Sep. 2023 – Dec. 2025

- **CS Coursework:** Object Oriented Programming, Machine Organization, Intro to AI, Big Data Systems, UI/UX, Algorithms and Data Structures

Madison Area Technical College

Transfer Coursework

Madison, WI

Aug. 2018 – May 2020

TECHNICAL SKILLS

Languages: Java, JavaScript/TypeScript, Python, SQL, HTML/CSS

Frameworks: React, Next.js, Tailwind CSS, shadcn/ui

Databases: MySQL

Developer Tools: Git, Postman, Jira, Slack, Docker

PROJECTS

Personal Portfolio Website | TypeScript, Next.js, Tailwind CSS, shadcn/ui, OpenAI API, Vercel Jul. 2026 – Jul. 2026

- Developed a responsive portfolio website using Next.js and TypeScript featuring an AI-powered chatbot, project showcase, and blog section.
- Integrated the OpenAI API to build a chatbot that retrieves portfolio information and answers questions about projects, technical skills, and professional experience.
- Deployed the application on Vercel for production hosting and continuous deployment. Live demo: <https://portfolio-page-lovat-six.vercel.app/>

UW-Madison Capstone Team Project | TypeScript, React, Tailwind CSS, Postman Sep. 2025 – Dec. 2025

- Developed reusable React components and responsive user interfaces for product discovery, ranking, and leaderboard pages using React, TypeScript, and Tailwind CSS.
- Built modular frontend components and responsive layouts, improving code maintainability and providing a consistent user experience across multiple application pages.
- Collaborated in an Agile development workflow using GitHub, Jira, and Slack, contributing to feature development, debugging, and version-controlled team collaboration.

WORK EXPERIENCE

Machine Vision Inspection Technician

LSP USA LLC — Ultium Cells Battery Plant

May 2026 – Present

Spring Hill, TN

- Provide technical support for machine vision inspection systems used in automated battery manufacturing.
- Diagnose and resolve hardware and software issues through systematic troubleshooting and root cause analysis, restoring equipment performance and minimizing production downtime.
- Collaborate with production, maintenance, and engineering teams to identify recurring issues, implement corrective actions, and improve system reliability.

Military Driver

South Korean Army

Nov. 2021 – Apr. 2023

Seoul, South Korea

- Transported personnel and materials, operating sedans, SUVs, and small cargo vehicles.
- Collaborated with senior officers to coordinate personnel leave schedules, ensuring adequate staffing and uninterrupted daily operations.
- Served as a squad leader for five months, mediating conflicts between fellow soldiers, coordinating logistics, and overseeing daily operations in a time-sensitive environment.
