EDUCATION

University of Wisconsin - Madison

Madison, WI

Bachelor of Science — Computer Science

Sep. 2023 – Dec. 2025

- **CS Coursework:** Object Oriented Programming, Machine Organization, Intro to AI, Big Data Systems, UI/UX, Algorithms and Data Structures

Madison Area Technical College

Madison, WI

Aug. 2018 – May 2020

TECHNICAL SKILLS

Languages: Java, Python, Javascript/Typescript, SQL

Technologies/Tech Stack: NextJS, TailwindCSS, MySQL, Docker

Developer Tools: Git, Slack, Jira, ChatGPT, Claude

PROJECTS

Portfolio page | *Typescript, NextJS, TailwindCSS, Shadcn, Vercel*

Jul. 2026 – Jul. 2026

- Created a personal portfolio website where I can showcase my projects and blogs using NextJS, TailwindCSS, Shadcn, Vercel
- Deployed on Vercel for easy integration with NextJS and it's live at <https://portfolio-page-lovat-six.vercel.app/>

UW-Madison Capstone Team Project | *Typescript, React, TailwindCSS, Postman, AWS* Sep. 2025 – Dec. 2025

- Collaborated in developing a fashion discovery web platform as a frontend developer using React, TailwindCSS, implementing modular UI components and dynamic navigation for product ranking workflows and leaderboards
- Built an interactive pairwise ranking UI that compares 16 products across 8 rounds, capturing winner-loser relationships and generating ranked outputs for session summaries and global leaderboard analytics
- Collaborated in an Agile development workflow using GitHub, Jira, and Slack, contributing to feature development, debugging, and version-controlled team collaboration

WORK EXPERIENCE

Machine Vision Support Technician

May 2026 – Present

LSP USA LLC — Ultium Cells Battery Plant

Spring Hill, TN

- Provide technical support for machine vision inspection systems used in electrode Notch and Dry manufacturing processes, ensuring continuous operation and minimizing equipment downtime.
- Diagnose and resolve hardware and software issues through systematic troubleshooting and root cause analysis to restore equipment performance.
- Collaborate with production, maintenance, and engineering teams to identify recurring issues, implement corrective actions, and improve system reliability.

Military Driver

Nov. 2021 – Apr. 2023

South Korean Army

Seoul, South Korea

- Transported personnel and materials, operating sedans, SUVs, and small cargo vehicles
- Collaborated with senior officers to coordinate personnel leave schedules, ensuring adequate staffing and uninterrupted daily operations
- Served as a squad leader for five months, mediating conflicts between fellow soldiers, coordinating logistics, and overseeing daily operations in a time-sensitive environment
